

# HPOE *Live!* Webinar Series 2013

**The presentation  
will begin shortly.**

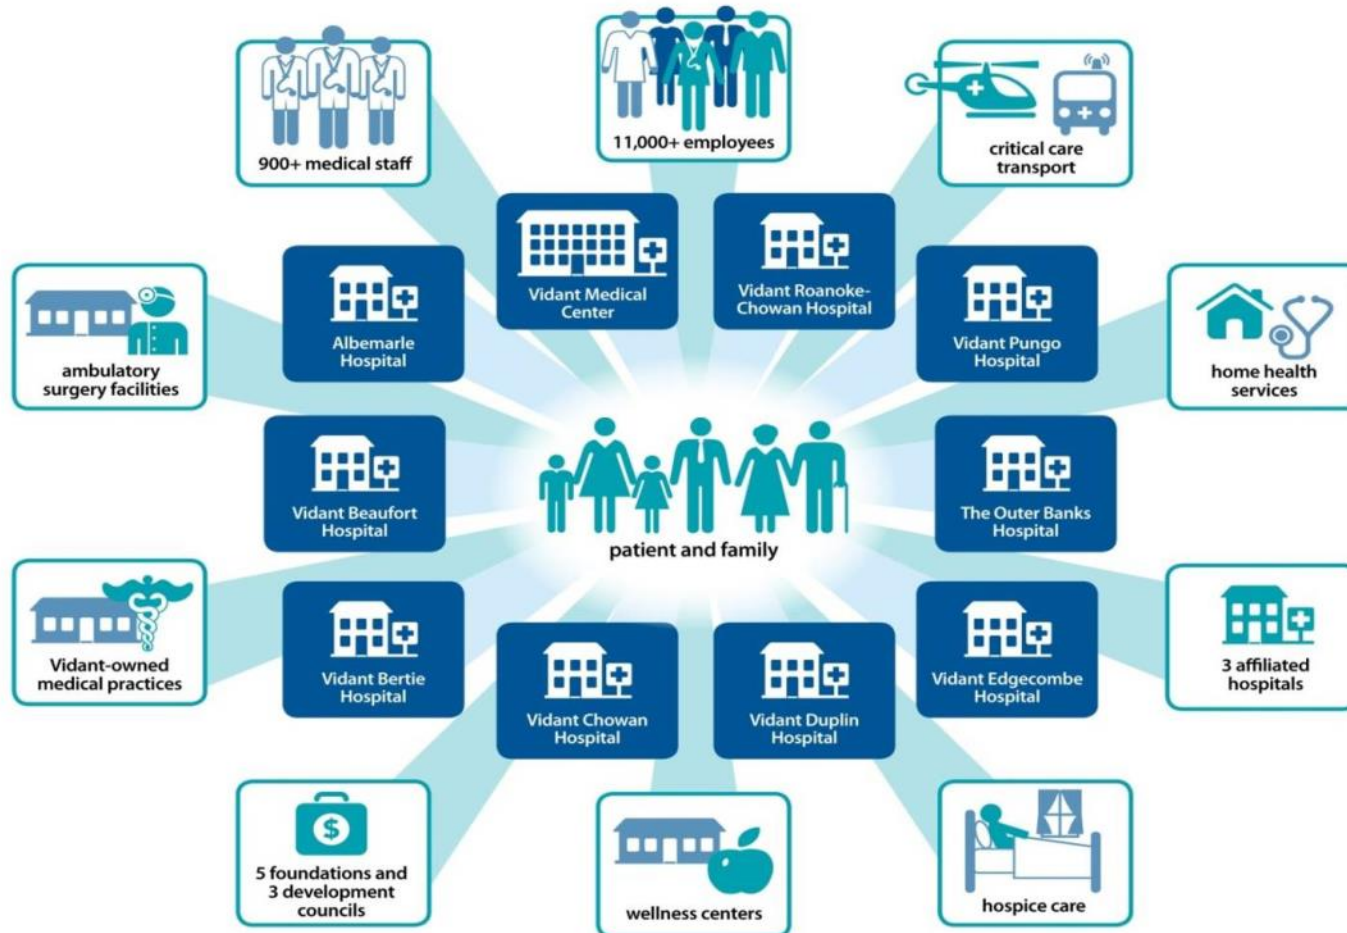

**VIDANT**<sup>™</sup>  
Medical Center

# Chasing Excellence: Achieving Outcomes with Leader and Patient/Family Engagement

# Objectives

- **Define the dimensions of patient and family centered care**
- **Describe leader and organizational commitment required to advance a culture of patient and family engagement**
- **Identify the value and best practices of patient and family engagement**

# Vidant Health

# Healthcare Reform

## WHERE WE HAVE BEEN

**Fragmented Care**

**Provider Centered**

**Payment for Volume**

**Facilities Focused**

**Physician Accountability**

**Paper**

**Episodic, Hospital-Based Care Models**

**Inconsistent, Variable Methods**

**Cost Reduction**

## WHERE WE ARE GOING

**Coordinated Care**

**Patient Centered**

**Payment for Value**

**Care Systems Focused**

**Care Team Accountability**

**Electronic**

**Longitudinal, Multi-Site Care Models**

**Efficient, Evidence-Based Care**

**Cost Restructuring**

# Leadership at All Levels

- **Staff & Physicians:** Bedside rounds, shift reports, interdisciplinary rounds, champion patient experience
- **Patients & Families:** Activated and engaged in self-care; advocate for improvement in services
- **Unit/Service Line & Quality:** Coach and mentor staff; conduct leader rounds to reinforce best practices
- **Hospital/System Executives:** Ensure patient and family experience performance is a priority
- **Board Members:** Advocate for patient engagement in development, implementation and evaluation of services

# System & Executive Leadership

- **90 day plans, annual plans, long range plans**
- **Entity audits and rounds**
- **System Coordination Group Meetings**
- **Performance Scorecards**
- **Collaboration, coaching and support**
- **Patient Safety and PI Committees**
- **Transparency**

# Vidant Health Broad Aims

- **Zero Events of Preventable Harm**
- **100% Optimal Care**
- **Exceptional Patient & Family Experiences  
( $\geq 90^{\text{th}}$  percentile)**

# Transparency

The screenshot shows the Vidant Health website in a Windows Internet Explorer browser. The address bar displays <http://www.vidanthealth.com/patientcare/service/>. The website features a navigation bar with links for Find A Location, Quality Care, Careers, and sections for Residents & Fellows, Health Professionals, and Employees. The main header includes the Vidant Health logo, social media icons for Facebook and Twitter, a search bar, and buttons for 'Find it Fast' and 'Pay Your Bill'. Below the header, there are buttons for 'Find a Provider', 'Contact Us', 'Get Maps & Directions', and 'Classes/Events'. A horizontal menu highlights 'PATIENTS AND FAMILIES', 'PHYSICIANS', 'OUR SERVICES', and 'HEALTH LIBRARY'. The 'Patient Care at Vidant' section lists various hospitals and services, including Vidant Bertie Hospital, Vidant Chowan Hospital, Vidant Duplin Hospital, Vidant Edgewcombe Hospital, Vidant Medical Center, and Vidant Roanoke-Chowan Hospital. The 'Patient Experience at Vidant Health' section explains that Vidant Health participates in public reporting using the Hospital Consumer Assessment of Healthcare Providers and Systems (HCAHPS) survey. It provides a 'complete list of questions here' and mentions that the Centers for Medicare and Medicaid Services (CMS) reports all hospitals' results on its Hospital Compare website. A table titled 'How are we doing?' lists the hospitals: Vidant Bertie Hospital, Vidant Chowan Hospital, Vidant Duplin Hospital, Vidant Edgewcombe Hospital, Vidant Medical Center, and Vidant Roanoke-Chowan Hospital. The text states that for convenience, results are reported on the website, but they may differ from CMS reports due to survey method and population variables. It also describes how the survey is conducted: patients are randomly selected, contacted by phone 48 hours to six weeks after discharge, must be at least 18 years old, and must have spent at least one night in the hospital, with mental illness patients excluded. A 'What do you want to do?' section offers 'Live chat' and 'Call me back' options. The Windows taskbar at the bottom shows the Start button and several open applications, including Novell GroupWise, Microsoft PowerPoint, and the Vidant Health website. The system clock indicates 2:05 PM on 2/10/2012.

**Patient Experience at Vidant Health**

Vidant Health takes part in public reporting on how patients view their care using a survey called the [Hospital Consumer Assessment of Healthcare Providers and Systems \(HCAHPS\)](#). This provides an objective report of how patients feel about the care they receive at a particular hospital during a particular stay. You can see a [complete list of questions here](#).

The [Centers for Medicare and Medicaid Services \(CMS\)](#) reports all hospitals' results on its [Hospital Compare](#) website. Using this information, consumers can see accurate comparisons of hospitals on issues that are important to them.

For your convenience, we report our hospitals' results on our website. Our reports may be slightly different from what you see on the CMS pages. CMS adjusts its results based on several factors including the survey method used (phone or mail) and patient population variables.

How is the survey conducted?

Patients are randomly selected to take part in the survey. They are contacted by phone between 48 hours and six weeks after they have been discharged from the hospital. Patients who are surveyed must be at least 18 years old and must have spent at least one night in the hospital. Patients who have been hospitalized primarily for mental illness are not called.

# Key Leverage Point

*Putting patient and families on the improvement team is the leverage point with the greatest potential to drive the long-term transformation of the entire system (IHI)*

# Patient and Family Advisors

- ***Guiding principle:*** Partnerships with patients and families are essential in achieving safe and reliable quality care and exceptional experiences
- ***Commitment:*** Embed patient and family perspectives in all decision-making

# Patient and Family Advisors

- **Share important perspectives**
- **Teach us how systems really work**
- **Inspire and energize staff and leaders**
- **Strengthen connections to community**

# Building a Team of Advisors

- ✓ **Design process for selection and recruitment of advisors**
- ✓ **Provide orientation and educate advisors on project aim**
- ✓ **Provide diversity in engagement opportunities to match interest and skills**
- ✓ **Facilitate relationships between advisors, leaders and staff**

# Patient and Family Advisor Roles

- **Patient Safety**
- **Quality Teams**
- **Patient Experience Mapping**
- **Leader and Staff Education**
- **Storytelling**
- **Facility Design**
- **Interview Teams**
- **Board Representatives**

# Patient Safety

**Safety Summits**  
**Safety Rounds**

# Quality Teams

- Falls with harm
- CAUTI
- Skin Breakdown
- Medication Errors
- VAP
- CLABSI
- Pain Management
- Failure Modes and Effects Analysis (FMEA)
- Root Cause Analysis (RCA)

# Storytelling

- **Strategy to engage the heart and mind**
- **Start with one compelling story**

**Christie's Story:**  
First shared with the  
Leadership Steering Team in  
May 2007

# Quality and Safety Outcomes

**VAP** ↓ **64%**

**CAUTI** ↓ **30%**

**CLABSI** ↓ **25%**

**FALLS** ↓ **40%**  
(with harm)

**Med Errors** ↓ **88%**  
(with harm)

\*FY2009-2012

# Patient Experience Outcomes

- **VIDANT MEDICAL CENTER RANKED #1 FOR PATIENT CENTEREDNESS (2012 UHC QUALITY AND ACCOUNTABILITY PERFORMANCE SCORECARD)**

# What's Next?

- **Continued integration of advisors into quality and safety work**
- **Enhanced patient engagement to meet patient experience goals**
- **Streamlined care across the continuum**

# About us....

- 649 licensed beds, including 440 medical/surgical beds, 77 critical care beds and 60 OB/GYN beds
- Off site/community health centers in 3+ suburban locations
- A full range of emergency services, including a Level 1 Trauma Center and roof-top heliport;
- Over 50,000 Inpatient Discharges
- Nearly 550,000 Outpatient Visits
- 5,000 births a year
- 56,000 Emergency Department Visits
- Over 291,000 Radiology Visits
- 6,100 Full-Time Equivalent Employees (Excluding Research)
- 1,250 physicians on the active medical staff (including over 800 full-time staff physicians), most of whom hold faculty appointments at Harvard Medical School
- BIDMC's research enterprise at approximately \$250 million -- consistently ranks among the top three recipients of biomedical research funding from the National Institutes of Health among independent hospitals . BIDMC is particularly known for its “bench to bedside” research, including more than 850 active sponsored projects and 500 clinical trials.

BIDMC has formed partnerships with other outstanding institutions to benefit our patients in communities where they live and work including acute care settings, extended care, specialty clinics and community based health centers providing services in 19 areas across the Commonwealth of MA.

# Early adopter of the IOM Framework for Care

- **Safe:** *no injuries from the care*
- **Timely:** *reduce waits and delays*
- **Effective:** *services based on scientific knowledge*
- **Patient Centered:** *care that is responsive to the individual*
- **Efficient:** *avoiding waste*
- **Equitable:** *quality does not vary because of personal characteristics*

## Consolidated Harm Reporting

Beth Israel Deaconess  
Medical Center

HARVARD MEDICAL SCHOOL  
TEACHING HOSPITAL

# BIDMC Definition of “**Harm**” Targeted for Elimination

Unintended physical injury resulting from or contributed to by medical care (including the absence of indicated medical treatment), that requires or prolongs hospitalization, and/or results in permanent disability or death.

# BIDMC Definition of ***“Preventable”***

Injury results from failure to provide care to the existing institutional standard

OR

Reasonable adaptations to the existing standard can be introduced that would be expected to decrease the risk of future injury by the same mechanism.

# Developing Academic QI Talent

## A Teaching and Learning Environment

Beth Israel Deaconess  
Medical Center

HARVARD MEDICAL SCHOOL  
TEACHING HOSPITAL

# Developing Academic QI Talent: New Paradigms

**Conventional View:** QI is a hospital function and not a domain for academic departments.

**BIDMC View:** QI is an integral part of clinical care and its advancement is an integral part of the academic mission.

# Developing Academic QI Talent: New Paradigms

**Conventional View:** Clinical care detracts from academic pursuits.

**BIDMC View:** We seek to provide the kind of care to every patient at all times that we would want our family members to receive. Clinical experience motivates QI research.

# Developing Academic QI Talent: New Paradigms

**Conventional View:** Plan, do, study, publish.

**BIDMC View:** Plan, do study, fix it, make the improvement permanent; *then and only then do we publish.*

- Level Flow / Pull Systems

## ENABLING

- Educating Staff
- Connecting Process/People/Policy

## SUSTAINING

- Measuring Success
- Celebrating/Sharing Stories

# Transparency and Accountability

THE FACTS AT BIDMC

we're putting ourselves under a microscope

In 2007, BIDMC began sharing performance and priorities on the web. The senior leaders and medical staff supported content that upheld the following :

- **Intellectual honesty**
- **Salience to patients/employees**
- **Credibility** with medical staff
- **Interpretable** information
- **Strategic value** to BIDMC
- **Timeliness**

# Engaging Patients and Families

Qualities of the BIDMC Patient/Family Advisors include :

- ability to listen and hear other points of view
- ability to share personal experiences in ways that others can learn from them and to then think beyond those experiences
- culturally sensitive and competent with respect to the diverse patient base that BIDMC serves
- ability to see the big picture
- enthusiastic about supporting BIDMC's mission/vision
- willingness to learn to be an effective council member (know how to ask the tough questions and what to do when not in agreement)
- seen at BIDMC within the last two years; and
- a sense of humor

# Invaluable Members of Active Committees

During 2013 advisors were seated on the following committees:

- Patient Care Committee of the Board of Directors
- Patient Education Committee
- Ethics Advisory Committee
- Medication Safety Subcommittee
- Drug Shortage Task Force
- Critical Care Executive Committee
- Critical Care Experience Task Force
- Patient Teachers in Patient Safety Education
- We CARE Initiative (Service Excellence)
- Conversation Ready Initiative (End-of-Life Planning)
- Grant Proposal and Design Committee
